First decisions for RETTmobil 2025

After the exhibition is before the exhibition: As soon as the last exhibitors have left Fulda, planning for RETTmobil 2025 is already beginning behind the scenes. The first decisions have already been made.

The patron of the 23rd RETTmobil next year will be Georg Khevenhüller, President of the Malteser Hilfsdienst e. V. "We are very pleased to have Mr. Khevenhüller as the patron of our event again after 2019, and we are convinced that with him and in cooperation with the Maltesers, we will once again set the right accents for emergency services and disaster relief next year", says exhibition director Manfred Hommel. "The Malteser Hilfsdienst is one of the largest aid organizations in the German rescue sector and has been a regular, loyal exhibitor at RETTmobil for many years."

Even before the last RETTmobil ended, it was clear that there would be a large-scale exercise next year as well. The rescue exercise in cooperation with the Johanniter Air Rescue attracted a lot of interest this year. Hundreds of visitors attended the live demonstration, including winch maneuvers. In 2025, an exercise focused on rescue from heavy agricultural machinery is planned. Several specialist services, including the fire department and emergency services, will be seen in action live before the audience.

Those who want to be there still have time. Tickets for RETTmobil 2025 are expected to be available online from around February next year. However, those who want to participate as exhibitors with their own stand in Fulda should hurry. "So far, 90 percent of this year's exhibitors from the rescue industry have booked for the 2025 exhibition", announces exhibition manager Sandra Hommel-Liebich. As a reminder: The next RETTmobil will take place from May 14 to 16, 2025 – as usual in Fulda.
